Experience

Assistant Center Director/Lead Tutor

Mathnasium - The Math Learning Center

Feb 2020 - Present (3 years)

I serve as the Lead Tutor and Assistant Center Director where I instruct students ranging from kindergarten age to first-year university students. I especially love teaching Algebra I, Algebra II, Geometry, Calculus, and SAT/ACT prep. I am also responsible for sales, instructor training, IT, and, parent and student satisfaction.

Lawn Technician

Engine Company Lawns

May 2021 - Present (1 year 9 months)

I do landscape management and sales for this thriving, three year old family business. I just love getting my hands dirty outdoors in the Florida heat sometimes. Its a wonderful release.

Inventory Analyst

Target

Feb 2018 - Mar 2019 (1 year 2 months)

Oversaw purchasing, international logistics, warehousing, and store allocation of inventory for a \$60M business segment. Daily responsibilities included data analysis, vendor communications and management, sales and financial forecasting, and logistics management. Played integral role in two multi-million-dollar brand launches.

Supply Chain Intern

Kerry

Jun 2016 - Aug 2016 (3 months)

Led inventory reconciliation project reclaiming over \$600K in lost inventory at a production facility. Applying Lean and DMAIC methodologies, designed and implemented process to prevent future inventory misallocation. Developed skill for work in diverse business environments: on one day, presenting before executives; on the next, on the factory floor in my hard hat.

Lean/Six Sigma Quality Intern

Lucas Milhaupt

Feb 2016 - May 2016 (4 months)

Paired with a university Lean/Six Sigma course, in this role I was tasked with identifying the root cause of high defect rates among the facility's high-purity alloys and modifying the production process to eliminate it. I began with analysis of material samples under a microscope. Sifting through continuous improvement data and observing the production process firsthand came next. Finally, I conducted

a Design-of-Experiments, generating a set of hypothetical solutions to reduce the defect rate and systematically testing each. This culminated in a new process for fabrication and cleaning that reduced defect rate by over 80%.

Lean Six Sigma Intern

Versiti Blood Center of Wisconsin

Aug 2015 - Dec 2015 (5 months)

Experiential learning internship through Lean Six Sigma course at Marquette University. With team of three, standardized the scheduling process of the Hemostasis Lab. Ultimately increased committed turn-around-time achievement from 93% to 95%, a rate which was best-in-industry.

Process Standardization, Lean techniques, Statistical Analysis.

Transportation Intern

Charter Steel

Jan 2015 - Dec 2015 (1 year)

Inventory Management, Logistics Communication, Carrier Management, Oracle, OTM, MS Excel w/ VBA, 5S. My first internship, where I learned foundational Supply Chain principles. I communicated daily with a dedicated fleet as well as several other carriers. Managed ~\$50K inventory across three plants nationwide. Logistics focus with collaboration with SCM dpt., Procurement dpt. Emphasis on community service throughout internship program.

Resident Assistant

Marquette University

Jan 2015 - May 2015 (5 months)

During the spring semester of 2015, I was a Resident Assistant (RA) of Victor McCormick Hall, an all-freshmen, co-ed residence hall.

While holding the position, I was responsible for the safety and personal growth of my 35 male residents. In addition, 13 times throughout the semester, I was on-call for 24-hour periods where I would be the first-line of response for any emergencies associated with the residents of my hall.

Through this position, I was able to develop my leadership skills immensely. This position required that I remain actively dedicated to the residents of my hall and possess sincere commitment to their safety and personal growth.

Local Intercampus Mobile Operation (L.I.M.O.) Driver

Marquette University Department of Public Safety

Jan 2014 - Dec 2014 (1 year)

Marquette University offers a campus transit service that covers the campus and the area surrounding throughout the night hours (5pm-3am) to ensure the security of its students.

During my time with the organization, I drove 14-passenger vans, providing transportation for the students who entered my van. A detailed, complex CV radio communications system was used to ensure efficient transit of students heading to multiple destinations, and to prevent large backlogs of students waiting to be transported.

This position was highly reliant upon teamwork and critical thinking. I developed skills of mental-visual process mapping, customer service, and effective and concise communication through this job.

Education

Marquette University

Bachelor of Science, Operations and Supply Chain Management

Aug 2013 - May 2017

Lean/Six Sigma, Business Strategy, Operations, Industrial Engineering. Integrated curriculum with internships.

Marquette University

Bachelor of Science - BS, Information Technology

Aug 2013 - May 2017

Project Management, Database Architecture, Software Development, Systems Design. Several projects for Non-Profits.

Licenses & Certifications

MITx 6.00.1x: Introduction to Computer Science and Programming Using Python (via edX.org) - Massachusetts Institute of Technology

MITx 6.00.2x: Introduction to Computational Thinking and Data Science (via edX.org) - Massachusetts Institute of Technology

MITx 6.431x: Probability - The Science of Uncertainty and Data (via edX.org) - Massachusetts Institute of Technology

MITx 6.86x: Machine Learning with Python-From Linear Models to Deep Learning (via edX.org) - Massachusetts Institute of Technology

Skills

French • C# • Lean Six Sigma • Python (Programming Language) • Visual Basic for Applications (VBA)
• Statistics • Machine Learning • Public Speaking • Database Design

Honors & Awards

Honors Program - Marquette University

Aug 2014

Member of the Honors Program at Marquette University
